## Ekoplant nursery

### About Ekoplant

- Established: 1991
- Location: Tološi settlement, the municipality of Podgorica.
- Approximately 3.2 km from the conference venue at the University of Montenegro.

### What they grow?

- The company is specialized in the production of fruit nursery plants, flowers, ornamental plants, as well as in landscape design and horticultural engineering.
- Nursery production takes place on around 15 ha of open fields and 0.5 ha in plastic greenhouses and shade nets.
- Ornamental plant production covers approximately 11 ha of open field and production of Mediterranean fruit nursery plants and various ornamental plants takes place on 0.5 ha under plastic greenhouses and shade nets (in Podgorica, the southern part of Montenegro).
- Experimental and mother plantations are located in the open field, where berry nursery plant production takes place on around 4.5 ha (in Bijelo Polje, village Potrk, 950 m.a.s.l., the northern part of Montenegro).
